---

**"Error 912: You have reached your machine activation limit. Please uninstall Capsa on the previous device. "**

This error is often shown with online activation. Every license for Capsa network analyzer is limited to activate a certain number of machine, and the total activation time is set to every machine. So when you reach any of the limitation, you have to contact us to unlock your license. Please send your license information, including serial number and company name to [support@colasoft.com](mailto:support@colasoft.com) to ask for unlock.
